🪪 Profile

I am a Software Engineer with **11 years of experience** across various programming technologies and **6 years focused on full-stack Angular and Node.js web development**. I have a particular interest in **UI/UX design**, ensuring that the interfaces I develop are intuitive and user-friendly. I am also enthusiastic about integrating **AI technologies** to bring innovation and enhanced functionality to modern web solutions.

🧠 Skills

Full-Stack Web Development
Expertise in Angular, Typescript, NodeJS, ExpressJS, NestJS, PostgreSQL, and Liquibase, Jasmine, Karma, Jest.

Frontend Technologies
